

## **2ª CIRCULAR**

### **XVI ENANPEGE 2025**

#### **NEW DATES FOR WGS PROPOSALS**

ANPEGE's Board of Directors hereby announces to the geographical community of postgraduate programs and research in geography the 2nd circular of the XVI ENANPEGE, scheduled to take place from September 21 to 26, 2025, in Macapá (AP). The purpose of this announcement is to inform about changes in the submission deadlines for working groups (WGs).

The new deadline for proposals has been set from **February 13, 2025, to March 6, 2025.**

We take this opportunity to inform that the official website will be operational from February 10 to facilitate registration and compliance with other event deadlines. The maintenance of the other rules for the proposal of working groups (WGS) is hereby reiterated.

#### **• PROPOSING WORKING GROUPS**

Considering the commitment to high academic quality—in its diversity and plurality—as well as the democratic principles that govern scientific activities, the ANPEGE Board of Directors sets forth the following regulations for the **proposal** and **approval** of Working Groups (WGs):

**1st** The coordinators of the Working Groups (WGs) must be faculty members affiliated with Postgraduate Programs in Geography that are associated with ANPEGE.

**2nd** each WG must have, necessarily:

- a) Three primary coordinators and two alternates;
- b) The coordinators, including primary and alternate members, must ensure representation from at least two of Brazil's geographical regions;
- c) The coordination, including both primary and alternate members, must include

representatives from at least three different postgraduate programs in geography.

**d)** In addition to the qualitative parameters of insertion and leadership within the geographical community, as well as scientific contribution, the composition of the coordination must also consider the following criteria:

- a) Gender representativeness;
- b) Ethnic representativeness;
- c) Representativeness of different research groups.

**3rd** The coordinators of the Working Groups (GTs), both primary and alternate, must be duly registered for the event.

**4th** The registration of Working Groups (WGs) for this call shall take place between **February 13 and March 6, 2025.**

**5th** The coordinators of the Working Groups (GTs), both primary and alternate, shall participate in the process of evaluating and selecting the submitted works.

**6th** In order to be included in the schedule of Working Groups (WGs) for the XVI ENANPEGE-2025, each WG must have a minimum of 10 (ten) and a maximum of 40 (forty) approved papers.

**7th** Coordinators shall not submit or have papers registered in their respective Working Groups (GTs), either as authors or co-authors. The submission of work in other WGs is optional as long as co-author. This requirement aims to ensure the full engagement of the coordinator in the working group (WG).

**8th** ANPEGE shall endeavor to provide technical support to the coordinators for the execution of the Working Groups (WGs). **9th** ANPEGE shall seek to ensure that the Working Groups (GTs) are representative of Brazilian geography, guaranteeing the inclusion of all thematic areas and theoretical and methodological perspectives, thereby fostering an open, plural, and democratic debate. In this regard, the association may suggest the merging or division of working groups (WGS) based on the volume of submitted papers.

**10th** The registration of Working Groups (WGs) shall be carried out using the specific form available on the event's website (**currently under construction**).

Lastly, any questions regarding the content of this circular may be directed to the ANPEGE Secretariat via email at [secretaria.anpege@gmail.com](mailto:secretaria.anpege@gmail.com)

Without further ado, the ANPEGE board extends its best wishes for an excellent year to the entire geographical community and a 2025 filled with gatherings, scholarly

work, challenges, and achievements.
